

Keystone holster

Rechargeable Battery
+
Protective Case in One

Made for

- iPhone 4
- iPhone 3GS
- iPhone 3G

USER MANUAL

Congratulations on your great purchase. The Keystone ECO holster automatically replenishes energy in the iPhone battery every time you put the phone in the holster.

Features

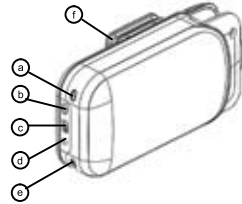

- Auxiliary battery and case all-in-one
- Automatically recharge iPhone when it is installed in the holster
- A convenient, detachable clip
- Protects front & back of the phone
- Powerful, safe Lithium polymer battery
- Multi-colored LED battery charge status and charge progress indicator
- Easy to load / unload phone from the holster

Notes:

1. iPhone 4 with bumper – Remove the bumper before sliding the iPhone 4 into the holster.
2. iPhone 3GS/3G with protective film – Make sure the clear film is positioned properly over the display screen glass. Any overhangs, folds, or creases around the edges may cause problems in sliding the iPhone into and out of the holster.

Learning the parts

- (a) speaker opening
- (b) Battery power test button
- (c) USB connector
- (d) Multi-colored LED indicator
- (e) Speaker opening
- (f) Detachable clip

Multi-colored LED indicator

The multi-colored LED indicator displays the battery level and the battery charging progress. Simply press the battery power test button and the integrated LED illuminates to provide the battery charge level remaining:

- Green : approximately 75% - 100%
- Yellow : approximately 25% – 75%
- Red : approximately 25% or less

When the holster is connected to USB power, the LED indicates the charging status.

- Green (flashing) : fully charged
- Green : charging and battery level above 75%

- Yellow : charging and battery level 25-75%
- Red : charging and battery level below 25%

Charging your holster

Before installing your iPhone, charge your holster for 8 hours. After the initial charge, normal charging will only take 3 to 4 hours to achieve maximum power.

Connect the holster to a power source using the USB cable provided in the package. Use Apple certified iPhone wall adaptor, or your computer USB port to charge this product. Do not use USB chargers from any other manufacturers. The LED indicator will illuminate and automatically indicate charge level.

If the holster is charged with the iPhone inside, a red LED appears when it is connected to the power source.

Charging your iPhone using the holster

To extend the battery life of your iPhone, simply slide the iPhone into the holster. When the iPhone connects with the holster, the holster will charge your iPhone automatically until it is fully charged, or the holster

battery becomes depleted, at which time charging stops. Press and hold the battery power test button, the LED indicator will display the battery level of the holster.

Note: To properly charge your iPhone with the holster, do not set Auto-Lock of your iPhone to "Never" in "Settings>>General" menu.

Optimizing the holster to its highest potential

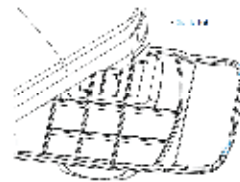

1. When not in use, recharge your holster once every three months.
2. Keep your holster dry and away from moisture.
3. Do not wash the holster with chemicals, soaps or detergents.
4. Keep the holster away from fire.
5. Keep the holster away from children and pets.

Compatibility

This device and the auxiliary battery are solely made for iPhone 4, iPhone 3GS and iPhone 3G. Do not use it to charge any other products which may use the 30 pin connector.

Removing the detachable clip

Move the phone compartment upward.
Push the "Clip latch" and slide the clip out.

Using the retractable chain holder

Simply rotate the chain holder counterclockwise. Connect to your desired chain. Please note that the chain is not included in the package.

Package contents

- Keystone ECO holster
- Mini USB cable
- User manual

Limited Warranty

Your Keystone ECO holster is warranted for 90 days from date of purchase to be free from defects in material and workmanship (valid for U.S.A. only). Be sure to keep your receipt for records.

The Keystone ECO holster and the internal battery are meant for use only with the iPhone 4, iPhone 3GS and iPhone 3G. Use with any other device, or charging the holster with any power source other than a standard USB voids the warranty. Concord Keystone Trading, LLC is not responsible for any damage that results from improper or unintended usage, or connection to any other device than iPhone 4, iPhone 3GS or iPhone 3G.

The Keystone ECO holster does not contain any user-serviceable parts. Do not attempt to dismantle or access the battery compartment, because this will cause permanent damage to your holster.

This warranty is limited to the defects which were not caused by misuse, abuse, improper handling, tampering or attempts to repair by the owner or any authorized repair service or repair man.
